Technologies

Proficient:
JavaScript, Node, Express, Sequelize, React, Redux, React-Redux, Git, HTML, React Native, Axios, Passport, Google OAuth, Agile, PostgreSQL

Knowledgeable:
CSS, JQuery, Mocha, Chai, Babel, SQL, Jest, Webpack

Some Experience:
Enzyme, Python, Nutrionix, Heroku, R, Bluebird, Sinon

Education

Fullstack Academy

Chicago, IL

Aug - Dec 2017

Immersive 3-month software development bootcamp

University of California Santa Barbara

Santa Barbara, CA

2013 - 2017

B.S., Mathematics

Summary

This past June I graduated from the University of California Santa Barbara with a Bachelor of Science in Mathematics. After taking a computer science course during college, I realized that what theoretical math lacks in clear application, coding possesses. I began to learn more about code this past summer and I was led to Fullstack Academy where I discovered my passion for finding creative solutions to challenging coding problems.

Projects

Feb - March 2018	Quiet Locations	Sole Developer github.com/ellenormerod/QuietLocations An iOS app for customers to find and review bars and restaurants based on noise level. • Developed with React Native, React-native-router-flux, Redux, Node, Express, PostgreSQL
Nov - Dec 2017	Daydreamer	Developer daydreamer-fsa.herokuapp.com A scheduling app created to improve event planning between groups based on individual interests. • Developed with Node, Express, React, PostgreSQL • Implemented a recommendation algorithm • Real time event planning and schedule coordination

Experience

Jan - April 2018	Fullstack Academy	Chicago, IL Teaching Fellow • Answered students questions during workshops • Graded five students work per cohort • Conducted admission interviews • Managed three senior projects
Jan - Dec 2015	Kappa Alpha Theta	Santa Barbara, CA Facility Management Director • Managed maintenance of sorority house • Worked closely with the House Director, Facility Corp Board, caterer, and House Advisor • Communicated rules/messages to 42 house members and 120 sorority members
